Project

▪ E-Bike Booking System

Tools : HTML, CSS, JavaScript, Sql,C#,.net

Developed a web-based platform for booking and managing electric bikes. Features include customer bookings, dealer inventory management, admin control, real-time availability, and secure payments. The system automates manual processes, enhances user experience, and improves operational efficiency.

▪ Hotel Management System

Tools : HTML, CSS, JavaScript, php,sql

Developed a web-based hotel management system that automates room bookings, customer management, and payment processing. The system provides real-time availability updates and a user-friendly interface for both customers and administrators.
